

## **Phyto Mon Su (Su)**

### **Academic Board member**

### **Former Student Representative**

I am Phyto Mon Su (Su), a former student of UNSW College, where I completed a Diploma of Science (Chemistry) and am now studying a Bachelor of Science majoring in Chemistry at UNSW. I have always loved chemistry and am motivated by curiosity and perseverance, which I believe continue to support my academic journey. Beyond my studies, I enjoy learning new languages, watching films, and connecting with different cultures. I also enjoy solving puzzles and exploring creative outlets, reflecting my passion for continuous growth and self-expression. With a strong interest in sustainable and innovative science, I aspire to make a meaningful contribution to both research and the wider community.
